

# Rock your Day

BRINCO R | THE ELECTRIC **MOTO**-BIKE

*brinCo*  
by **BULTACO**

# bultaco isback

The Bultaco story is based on one of the purest impulses we have in life: to dream.

Dreams and ambition were the factors leading Don Paco Bultó and his committed team to undertake their ambitious challenge despite the fact that many people considered it impossible to overcome.

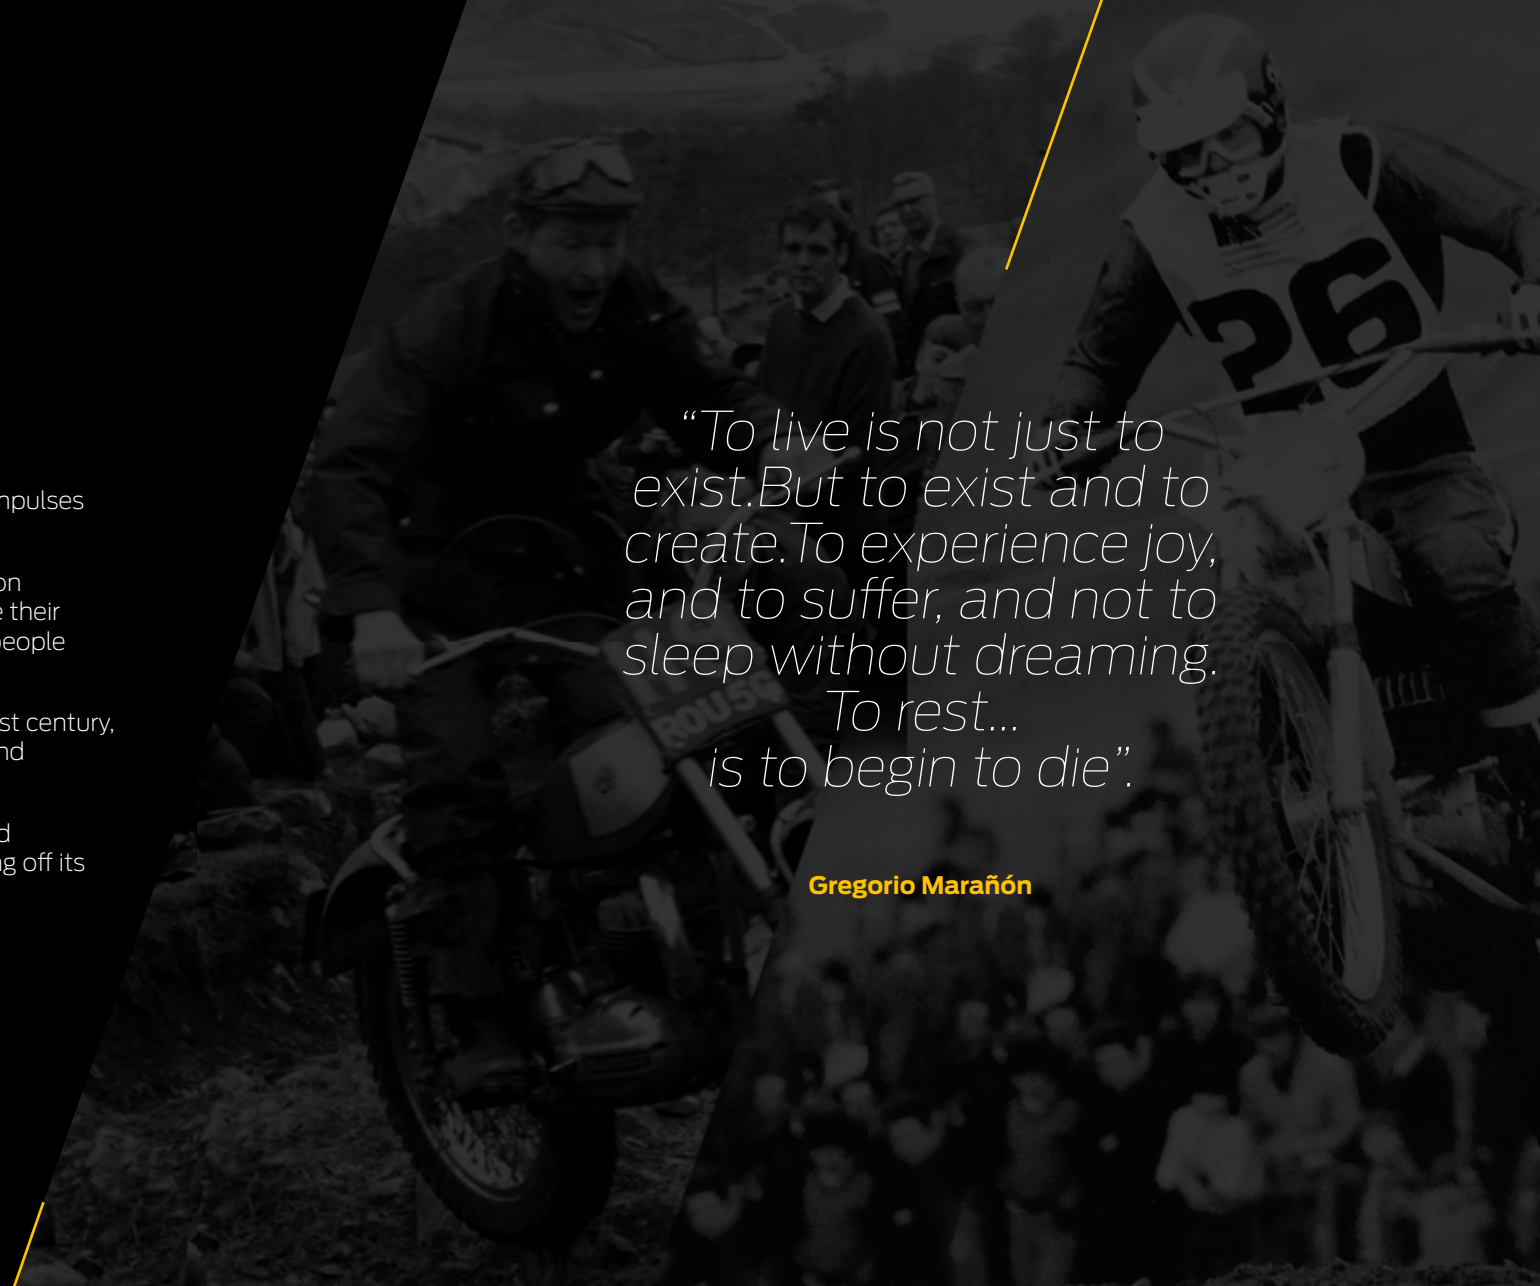

The new Bultaco team aims to continue, in the 21st century, the amazing story, made of passion, innovation and competition.

It continues to draw inspiration from its celebrated motorcycles, proud of its legacy... but without living off its past, always looking ahead.

Because sometimes dreams come true.

*“To live is not just to exist. But to exist and to create. To experience joy, and to suffer, and not to sleep without dreaming. To rest... is to begin to die”.*

**Gregorio Marañón**

# the legend continues

1958

A legend is born

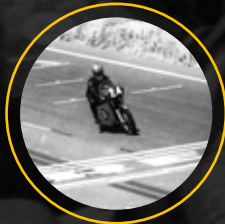

1959

The Tralla 101, the first Bultaco

1960

Five long-distance speed records

1968

The first Spanish brand to win a World Grand Prix

1973

Jim Pomeroy & the Pursang MK6: World Champions

1975

The Sherpa T, five consecutive World Championships

1979

Bultaco Streaker, the revolution in multi-tubular chassis

TODAY

Something surprising, like you never imagined, is now here

*dream again*

Motorcycle? Bicycle?  
**No, Moto-Bike**

# WELCOME TO BRINCO

**Brinco is the first Moto-Bike**, a striking fusion of the motorbiking and cycling worlds.

A totally new way of approaching and experiencing two wheels, taking the riding experience into a whole new dimension.

Don't even try to stick a traditional label on the Brinco. It looks like a competitive mountain bike, or maybe a Trial motorcycle, or maybe one for Cross... or for Urban Trail. In the end you realize that it's really something totally new and revolutionary.

The result of a new language developed by Bultaco.

**100 % Fun.  
100 % Bultaco.**

## Thrills you never even dreamed of

Electric-human boost: 100% electric engine and independent pedal system.

## You're in control

3 riding modes and a dual adjustable suspension.

## Enjoy the perfect ride

Thanks to its Power Control and Overdrive.

## Always on

Keyless Start. Smartphone Connectivity. Battery Charge in 3 hours, and removal in less than 15 seconds.

FEEL

## THE ABSOLUT FREEDOM

Feel total freedom thanks to its mix of pedaling and the motor's heart-stopping thrust. Although the pedaling and motor systems are independent, the dual traction will allow you to enjoy riding **like you never even dreamed.**

THRILLS YOU  
NEVER EVEN  
DREAMED OF

The Brinco Bultaco offers you a totally new way of approaching and experiencing riding on two wheels. A surprising combination fusing the world of motorcycles and bicycles: electrical propulsion and the physical experience of riding with two pedals.

**How fast you go and far you get will depend on combining your own pulse with the Brinco's electrical heart.**

**RIDE AND ENJOY!**

**Throttle grip**

Grip the accelerator so you can feel the power in your hands.

**Independent pedaling**

The sporting experience of the non-assisted pedalling. Be part of the Brinco.

**Heart-stopping thrust**

60Nm torque to enjoy an unmatched face-to-face experience with the wind.

# EX PERI EN CE

## NEW EMOTIONS

Experience its three riding modes: Sport / Tour / Eco, and adjust the front and rear suspensions to enjoy whatever situation you're dealing with.

**You're in control.**

With the Bultaco Brinco every obstacle is an opportunity to play, enjoy, feel and maximize the Brinco's unique capabilities.

Enjoy a new riding experience when, where and above all, as you like best: set up your Brinco R however you prefer to get the very most out of it in any situation.

### 3 Riding Modes

#### Sport

*2kW*

Have a blast, as it brings out all the enthusiasm you've got inside. Up to 50 km on one charge!

#### Tour

*1,5kW*

Less power but the same torque. You control its performance throughout your ride. With a range of 75 km!

#### Eco

*0,8kW*

The economical mode, to enjoy maximum range and take on even the biggest slopes with the utmost efficiency. Go even further! Up to 100 km!

### Dual Adjustable Suspension

The dual suspension means lots more fun. Just fine-tune the precharge and shock absorption however you like, and the way you want to ride to tailor your Brinco experience to just what you're looking for, all the time.

The 180-mm inverted front fork and 217-mm mono rear shock offer outstanding stability, more precise steering, and an excellent off-road setting.

# YOU'RE IN CONTROL

A man in a dark suit and white shirt is captured mid-air, jumping with his arms outstretched. He is positioned in the center-left of the frame. The background shows a modern building with a grid-like facade and large windows. The overall scene is in black and white, with a yellow text overlay.

HAVE  
FUN

**LIKE YOU NEVER  
IMAGINED**

Control the power thanks to the Power Control and pedal comfortably at any speed by activating the Overdrive.

**Enjoy the perfect ride!**

# ENJOY THE PERFECT RIDE

Bultaco developed specific systems with you and your fun in mind.

That's why the Brinco is equipped with everything to take you wherever you want to go.

## Overdrive

The epicyclic gearing system delivers an increase or decrease in the gear ratio and maximizes pedaling comfort at any speed. Activate it using your heel to press the button located on the axis of the pedals when riding at higher speeds. To change the gear ratio back just perform the same action with the other foot.

## Power Control

It allows you to maintain a constant level of power while always enjoying the same thrust, forgetting all about the throttle.

# CO NN E CT

## WITH PASSION

Control your Brinco with its keyless start system and play with it on your smartphone and in the Cloud. Your Brinco will always be on: remove its battery in less than 15 seconds and charge it in just 3 hours.

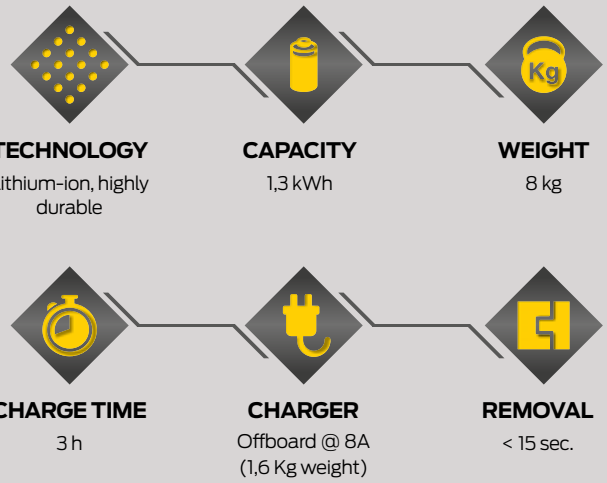

**Enjoy total connectivity.**

The Brinco will only step when you want to. Its battery, with specific and unique features, is there to keep you moving.

And charging it is simple, convenient and fast.

### Battery

ALWAYS ON

We know connectivity is essential in your day-to-day life. And this is even truer with a travel companion like the Bultaco Brinco. Its innovative start system and the app, designed by Bultaco, make using the Brinco a unique experience

Plus, its security system guarantees that nobody but you can use your Bultaco Brinco.

ALWAYS  
ON

### Keyless Start

To unlock and start up the Brinco just place your card near its control panel. You can also start the Brinco with an elegant band that you can choose to wear all day, or use only when you want to ride your Brinco.

### Brinco APP

Thanks to the app just for your Brinco, you'll be always in contact with it. On your smartphone you will have access to precise and immediate information, including a long list of relevant figures. You can activate geolocation of the Bultaco Brinco by means of a SIM card.

The Brinco app will be soon available for both iOS and Android.

### Security

Nobody but you can use your Bultaco Brinco, unless you want to lend it to someone. The Bultaco Moto-Bike features a sophisticated magnetic security and user identification system that unlocks and renders the Bultaco Brinco operable

EN  
JOY

## YOUR FREE TIME

When you experience the fun the Brinco gives you, you'll finally realize what you want to do with your free time: **put it into action.**

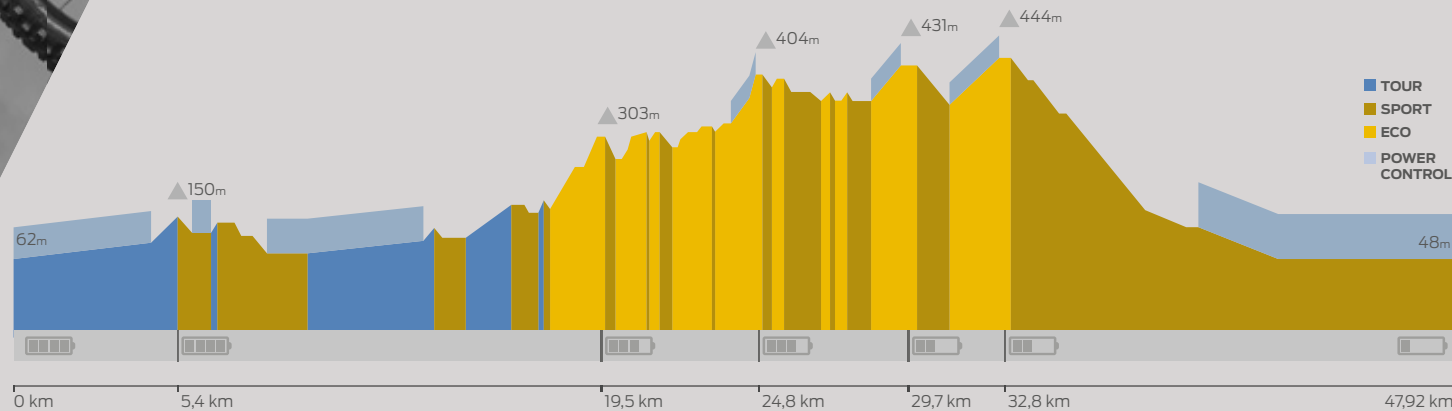

# THE BRINCO IN ACTION

## TIPS FROM OUR RIDERS

On this sample route, on which you cover a variety of terrain, with flats, grades and descents, our riders tell you how to combine riding modes with the pedaling system, Power Control and Overdrive. 100% Bultaco fun guaranteed for two hours!

Keep in mind that this is just an example. You decide how far you can go on your ride, which will depend on how you combine the three modes.

|            |                   |                  |             |             |
|------------|-------------------|------------------|-------------|-------------|
| Route Type | TOTAL TIME 1h 59' | DISTANCE 47,92Km | SLOPE+ 500m | SLOPE- 500m |
|------------|-------------------|------------------|-------------|-------------|

- ▶ Use the POWER CONTROL to enjoy constant thrust and optimize battery life.
- When riding at high speeds, combine pedaling with OVERDRIVE.
- ▶ To attack hills always use the ECO Mode in combination with the pedals.
- The pedaling and motor are independent, but you use them both throughout your ride to get the very most out of the Brinco.
